Foreword

The Youth Parliament Pakistan is a platform for the Pakistani youth patterned after the National Assembly of Pakistan with 60 members selected from all across the country for a one year term.

The idea behind facilitating a Youth Parliament Pakistan is not just to put Pakistani Youth through a mock exercise of what Parliament does and how it should work, but to inculcate in them the values and culture of democracy as central to effective governance in any society. In many ways, the process of Youth Parliament Pakistan is not just following the practices adopted by Pakistani Parliament but also to introduce concepts drawing from international best practices that improve upon those practices.

The 6th Youth Parliament Pakistan (2014) has its own 2-party system, Leader of the House and Opposition, as well as an augmented system of Parliamentary Committees with Committee Chairpersons, Vice Chairpersons and Secretaries.

The PILDAT Youth Parliament Pakistan initiative, the 6th batch, is supported by the Danish International Development Agency, Government of Denmark, as recognition of the importance of young people's development in democracy and democratic practices.

This Introductory Book presents details about the 6th Youth Parliament Pakistan (2014) and its selected members. We at PILDAT, as the Secretariat of Youth Parliament Pakistan, look forward to receiving feedback and input of young members and other stakeholders so as to enhance the effectiveness and efficiency of this exercise in the future.

Why a Youth Parliament?

The vision of Youth Parliament Pakistan, its establishment and facilitation by PILDAT since 2007 has been part of our focus on Youth in the country. This focus has emanated from a critical requirement of Youth's awareness, education and training in the norms of politics and democracy in the country.

PILDAT believes sustainable democracy and the sustainability of sound democratic institutions in Pakistan is not possible without youth's involvement in the democratic and political processes. The idea behind facilitating a Youth Parliament Pakistan is not just to put Pakistani Youth through a mock exercise of what Parliament does and how it should work but to inculcate in the Youth of Pakistan the values and culture of democracy, tolerance, critical thinking and a rational, reason-based dialogue.

Youth (Aged 15 to 29 years as defined by the Government of Pakistan) forms a very significant segment of Pakistani society. Its proportion in the national population is extra-ordinarily large (55.7 Million or 30 % of the total estimated population of 184.35 million)¹ Unfortunately, Pakistan has so far been unable to optimally harness the potential offered by the 'Youth Dividend.' Very little has been spent on the development of the youth to make them a productive part of the society. Both access and quality of education remain grossly deficient and lack of human development opportunities for youth have led to general disillusionment among the youth. Young people do not have suitable forum to express their views and there are limited opportunities to inform them on national affairs and groom them to engage in a rational discourse over challenges facing them and their society. Students Unions, which used to be a very dynamic and democratic platform in educational institutions up to late 1970s, no longer exists.

In this backdrop, the Youth Parliament Pakistan is an effort to provide a platform to the Youth to develop their leadership potential, to challenge them to engage in critical thinking and to articulate their views in a structured manner based on facts and figures.

The 60-membered body, established in 2007, has been envisioned as a scaled-down replica of the National Assembly of Pakistan. It draws its membership from all over Pakistan and each Youth Parliament meets for 25 days over a one-year term.

PILDAT acts as the Secretariat of the Youth Parliament Pakistan. So far five Youth Parliaments have completed their one-year terms each.

1. As per the estimates of the National Institute of Population Studies, Planning Commission for the year 2013 as quoted in the Economic Survey of Pakistan: 2012-2013.

- iv. Engage in critical thinking on issues affecting Pakistan
